

ABOUT iLEAD GLOBAL

... adding value to others

Welcome to **iLead global** which is an organization that offers progressive transformation processes centered on various objectives (Leadership, Entrepreneurship and Personal Development). We ensure measurable success of the persons and organizations through continuous coaching.

ILEAD stands for International Leadership, Entrepreneurship and Personal Development.

ILEAD GLOBAL was founded by Coach **RAPHAEL DJINE** having been mentored by John Maxwell, Tony Robbins, Bob Proctor and Myles Munroe. He combines the teachings of these great men in his global institute and coaching programs. He has a goal to change the lives of 2 Billion people around the world by the year 2040.

TRAINING PROGRAM

iLEAD Global Training Center is founded with an objective of developing a new generation of professionally trained multi-tasking personnel to cater the local Industry needs. Besides specialized programmes the Training Center also conducts various short-term professional and customized courses to meet individual and organization needs.

iLEAD Global Training Center blends theoretical training with hands-on practical experience to give students a distinct edge in the job market. Our programmes aim to develop readily employable manpower with emphasis on knowledge, skill, communication, personal and professional development. The Training Center lays great emphasis on the placements of its students in the Industry.

iLEAD GLOBAL TRAINING CENTER

For an optimistic vision of the future of jobs in Sub-Saharan Africa to become a reality, iLEAD Global training center not only provides services to develop the skills needed today, but also to start building the skills needed to successfully leverage the technological advances of tomorrow. To develop this pipeline of future skills, iLEAD Global training center begin by encouraging critical thinking, creativity, cognitive flexibility and emotional intelligence, as opposed to conventional learning, to match the way people will increasingly work and collaborate in the Fourth Industrial Revolution.

MISSION

Our mission is to uplift every individual seeking to develop new skills and build a career
